File Cong Briefings
CP

TO: Carl Duckett

Carl,

I was informed yesterday by John Warner, OGC, that the Agency has been requested to provide an "updated briefing" to the select Senate Committee on space matters on the 12th ^{14th} ~~12th~~ of January. Warner anticipates that Senators Anderson, Symington, Margaret Chase Smith, and possibly Magnusson will be present. All source data can and should be used. Bud Wheelon tells me this is your ballgame. For times and other specifics, as you know, you can deal directly with John Warner. I would appreciate being kept informed as the arrangement are nailed down and getting a summary of the items covered and the reaction of the committee after the briefing since sometimes what we say at these briefings later on results in other questions pertaining to budget, personnel levels, etc.
